

## *The Pitch*

If I can show you how to get out of debt, including your mortgages in 8 to 10 years, would you be interested?

One of my firm's specialties is 'Liability Management'. Liability management is a financial service, much like tax management, or risk management, that actively manages your debt and focuses on rapid payoff without increasing your payments.

We are not: Debt Consolidators or Debt Counseling – both of which can harm your credit rating. We take a professional approach to the liability side of your personal financial statement and use sophisticated techniques to eliminate all creditor obligations – including mortgages – in 8 to 10 years.

We do not take short cuts or compromise your credit standing in any way. All your creditors will be paid in full and your credit rating will actually increase.

Your only out of pocket cost is an appraisal, if one is needed.

Do you have an interest? Can we make an appointment to talk further?
